The management of the Companies further believes that the proposed consolidation will result into better efficiencies and economies of scale and in the post pandemic world, a single unified organisation is likely to have a faster growth trajectory. The consolidated organization is also expected to create more value for all the stakeholders.

3.2 Rationale for the Scheme

- 3.2.2 The management of the respective Companies are of the view that the amalgamations proposed in this Scheme is, in particular, expected to have the following benefits:
- a) Consolidation of the complementing strengths will enable the Amalgamated Company to have increased capability for offering diversified products and services on a single platform. The management of the respective companies believe that both the businesses (i.e., Non-Mobility Business (*as defined hereinunder*) and Mobility Business (*as defined hereinunder*)) will benefit from separate focused management and separate investment strategy leading to development, expansion and growth for maximisation of stakeholder value.
- 3.2.5 After the demerger of the Demerged Undertaking and vesting of the same into the Resulting Company pursuant to Part C of the Scheme, the residual undertaking of the Amalgamating Company No. 2 which is engaged in the Mobility Business (*as defined hereinunder*) and therefore has a greater synergy with the business of the Amalgamated Company (manufacture of stainless steel and stainless steel products) would be amalgamated with the Amalgamated Company pursuant to Part D of the Scheme to tap the larger resources of the Amalgamated Company, enhance its productivity and efficiency of operations and logistics.

It is based on information made available to us as of the date of this report, events occurring after that date hereof may affect this report and the assumptions used in preparing it, and we do not assume any obligation to update, revise or reaffirm this report.

The ultimate analysis will have to be tempered by the exercise of judicious discretion by the valuer and judgment taking into account the relevant factors. There will always be several factors e.g. Management capability, present and prospective yield on comparable securities, market sentiment etc., which are not evident on the face of the financial statement, but which will strongly influence the worth of a share.

There is, therefore, no indisputable single fair value. While we have provided our recommendation of the share exchange/ entitlement ratio based on the information available to us and within the scope and constraints of our engagement, others may have a different opinion. The final responsibility for the determination of the share exchange/ entitlement ratio at which the proposed transaction shall take place will be with the Board of Directors of the Transacting Companies, who should take into account other factors such as their own assessment of the proposed transaction and input of other advisors.

In the course of our analysis, we were provided with both written and verbal information, including market, technical, financial and operating data including information as detailed in the section – Sources of Information.

In accordance with the terms of our engagement, we have assumed and relied upon, without independent verification of

- the accuracy of information that was publicly available, which formed a substantial basis for the report; and
- the accuracy of information made available to us by the Management;

We have not carried out a due diligence or audit or review of the Transacting Companies for the purpose of this engagement, nor have we independently investigated or otherwise verified the data provided.

We are not legal or regulatory advisors with respect to legal and regulatory matters for the proposed transaction. We do not express any form of assurance that the financial information or other information as prepared and provided by the Management of the Transacting Companies is accurate. Also, with respect to explanations and information sought from the advisors, we have been given to understand by the Transacting Companies that they have not omitted any relevant and material factors and that they have checked the relevance or materiality of any specific information to the present exercise with us in case of any doubt. Accordingly, we do not express any opinion or offer any form of assurance regarding its accuracy and completeness.

Our conclusions are based on these assumptions and information given by/ on behalf of the Management. The Management has indicated to us that they have understood any omissions, inaccuracies or misstatements may materially affect our recommendation. Accordingly, we assume no responsibility for any errors in the information furnished by the Transacting Companies and their impact on the report. Also, we assume no responsibility for technical information (if any) furnished by the Transacting Companies. However, nothing has come to our attention to indicate that the information provided to us was materially misstated/ incorrect or would not afford reasonable grounds upon which to base the report. We do not imply and it should not be construed that we have verified any of the information provided to us, or that our inquiries could have verified any matter, which a more extensive examination might disclose.

The report assumes that the Transacting Companies comply fully with relevant laws and regulations applicable in all its areas of operations and that the Transacting Companies will be managed in a competent and responsible manner. Further, except as specifically stated to the contrary, this report has given no consideration on to matters of a legal nature, including issues of legal title and compliance with local laws and litigation and other contingent liabilities that are not represented to us by the Management.

This report does not look into the business/ commercial reasons behind the proposed transaction nor the likely benefits arising out of the same. Similarly, the report does not address the relative merits of the proposed transaction as compared with any other alternative business transaction, or other alternatives, or whether or not such alternatives could be achieved or are available. This report is restricted to recommendation of share exchange/ entitlement ratio only.

We would like to emphasize that as per the proposed demerger envisaged in the Scheme, the Non-Mobility Business of JSLL ('Demerged Company') will be demerged into its wholly owned subsidiary i.e. Jindal Lifestyle Limited ('Resulting Company') and upon cancellation of the entire outstanding issued and paid up share capital by way of capital reduction as a part of the Scheme of the Resulting Company, fresh issue of shares would be made to the existing shareholders of JSLL on a proportionate basis such that their existing holding in JSLL is replicated in the resulting company. Accordingly, we believe that any share entitlement ratio can be considered appropriate and fair for the proposed demerger as the inter-se proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary and we have therefore not carried out any independent valuation of the subject business.

JML (Amalgamating Company No. 3) is a wholly owned subsidiary of JSHL which is one of the amalgamating companies in the Scheme (i.e. JSHL (Amalgamating Company No. 1) and it would get merged with JSL (Amalgamated Company), hence the shares held by JSHL in JML would get transferred to JSL and cancelled upon amalgamation and no further equity shares would be required to be issued to the equity shareholders of JML i.e. JSL for the proposed amalgamation as defined under Part E of the Scheme. We have therefore not carried out independent valuation of JML.

Equity shares of JSCMS (Amalgamating Company No. 4) outstanding as at the report date are held in equal proportion by JSL (Amalgamated Company) and JSHL (Amalgamating Company No. 1). Given that JSHL being one of the amalgamating companies in the Scheme and JSL being the amalgamated company, the shares held by JSHL in JSCMS would get transferred to JSL and cancelled upon amalgamation and no further equity shares would be required to be issued to the equity shareholders of JSCMS i.e. JSL for the proposed amalgamation as defined under Part F of the Scheme. We have therefore not carried out independent valuation of JSCMS.

Certain terms of the proposed amalgamation and demerger are stated in our report, however the detailed terms of the proposed amalgamation and demerger shall be more fully described and explained in the scheme document to be submitted with relevant authorities in relation to the proposed amalgamation and demerger. Accordingly, the description of the terms and certain other information contained herein is qualified in its entirety by reference to the Scheme document.

The fee for the Engagement is not contingent upon the results reported.

We owe responsibility only to the Board of Directors of the Transacting Companies who have appointed us, and nobody else. We do not accept any liability to any third party in relation to the issue of this report. It is understood that this analysis does not represent a fairness opinion. In no circumstance shall our liability exceed the amount as agreed in our Engagement Letter.

This valuation report is subject to the laws of India.

Neither the report nor its contents may be referred to or quoted in any registration statement, prospectus, offering memorandum, annual report, loan agreement or other agreement or document given to third parties, other than in connection with the purpose of determining the share exchange/ entitlement ratio for the proposed transaction and relevant filing with regulatory authorities in this regard, without our prior written consent.

In addition, this report does not in any manner address the prices at which equity shares of JSL and JSHL shall trade following announcements of the proposed transaction and we express no opinion or recommendation as to how shareholders of the Transacting Companies should vote at any shareholders' meetings. Our report and the opinion/ valuation analysis contained herein is not to be construed as advice relating to investing in, purchasing, selling or otherwise dealing in securities.

VALUATION APPROACHES

It should be understood that the valuation of any company or its assets is inherently subjective and is subject to uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, we made numerous assumptions with respect to project related performance, market, industry performance and general business and economic conditions, many of which are beyond the control of the company.

The application of any particular method of valuation depends on the purpose for which the valuation is done. Although, different values may exist for different purpose, it cannot be too strongly emphasized that a valuer can only arrive at one value for one purpose. Our choice of methodology of valuation has been arrived at using usual and conventional methodologies adopted for transactions of similar nature and our reasonable judgment, in an independent and bona fide manner based on our previous experience of assignments of a similar nature.

The following are commonly used and accepted methods for determining the value of the equity shares of a company:

1. Market Approach:
 - a) Market Price method
 - b) Comparable Companies Market Multiple method
2. Income Approach – Discounted Cash Flow method
3. Asset Approach – Net Asset Value method

For the proposed transaction, we have considered the following commonly used and accepted methods for determining the value of the equity shares of the Transacting Companies for the purpose of recommending the share exchange ratio, to the extent relevant and applicable:

1. Market Approach

a) Market Price Method

The market price of an equity share as quoted on a stock exchange is normally considered as the value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares. But there could be situations where the value of the shares as quoted on the stock market would not be regarded as a proper index of the fair value of the share especially where the market values are fluctuating in a volatile capital market. *Further, in the case of an amalgamation, where there is a question of evaluating the shares of one company against those of another, the volume of transaction and the number of shares available for trading on the stock exchange over a reasonable period would have to be of a comparable standard.*

In the present case, equity shares of JSL and JSHL are listed on NSE and BSE and GDS are listed on LSE, which are widely held, regularly and frequently traded with reasonable volumes on the exchanges. We have therefore used the market price approach to value the equity shares of JSL and JSHL. We have considered the SEBI prescribed average of two weeks market price formula prior to relevant date to arrive at the market price of the respective companies.

JSL has certain outstanding convertible share warrants as at report date, since market price reflects all the factors/ attributes applicable to the Company, we have not undertaken any separate adjustment towards the outstanding convertible share warrants.

Equity shares of JSLL, JML, JSCMS and JLL are not listed on any stock exchange and we have therefore not considered the market price method to value their shares.

Since in the subject case equity shares of a listed company i.e. JSL would be issued to the shareholders of unlisted company i.e. JSLL, the minimum price at which shares are to be issued is prescribed under Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulation, 2018 issued vide notification No. SEBI/LAD-NRO/GN/2018/31 dated 11 September 2018 and as amended from time to time. The regulation reads as under:

The price of equity shares to be issued shall be determined either by Regulation 164 or Regulation 164B, as may be opted for by the Company. The relevant extract of the regulations are:

Regulation 164 (Pricing of frequently traded shares)

(1) If the equity shares of the issuer have been listed on a recognised stock exchange for a period of twenty six weeks or more as on the relevant date, the price of the equity shares to be allotted pursuant to the preferential issue shall be **not less than higher of** the following:

- (a) the average of the weekly high and low of the volume weighted average price of the related equity shares quoted on the recognised stock exchange during the **twenty-six weeks** preceding the relevant date; or
- (b) the average of the weekly high and low of the volume weighted average prices of the related equity shares quoted on a recognised stock exchange during the **two weeks** preceding the relevant date.

Regulation 164B (Optional pricing in preferential issue)

(2) The price of the equity shares to be allotted pursuant to the preferential issue shall **not be less than the higher of** the following:

- (a) the average of the weekly high and low of the volume weighted average price of the related equity shares quoted on the recognised stock exchange during the **twelve weeks** preceding the relevant date; or
- (b) the average of the weekly high and low of the volume weighted average prices of the related equity shares quoted on a recognised stock exchange during the **two weeks** preceding the relevant date.

The pricing method determined at Regulation 164B shall be availed in case of allotment by preferential issue made between July 01, 2020 or from the date of notification of this regulation, whichever is later and December 31, 2020.

The relevant date for the purpose of computing the price of the equity shares of JSL has been considered to be the date of the board meeting of JSL approving the Scheme in accordance with the SEBI Circulars relating to schemes of arrangement. We have therefore considered the prices upto a day prior to the relevant date i.e. price upto 28 December 2020 have been considered, to ensure that the price of JSL shares being considered for the exchange are not less than the minimum price arrived under the above formula prescribed under Regulation 164 and Regulation 164B.

We have considered the formula prescribed under Regulation 164 for our analysis.
Refer Annexure-2 for the prices of JSL arrived under the above applicable regulations.

b) Comparable Companies Multiples ('CCM') / Comparable Transactions Multiples ('CTM') method

Under CCM, the value of shares/ business of a company is determined based on market multiples of publicly traded comparable companies. This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. CCM applies multiples derived from similar or 'comparable' publicly traded companies. Although no two companies are entirely alike, the companies selected as comparable companies should be engaged in the same or a similar line of business as the subject company. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

Based on our analysis and discussion with the Management, we understand that JSL and JSHL are the only two listed companies in India which operate primarily in the Stainless Steel Industry. Given that there are no other comparable listed companies operating primarily in the same industry, we have not used the CCM method to value the equity shares of JSL and JSHL.

Further, based on our analysis and discussion with the Management, we understand that there are comparable listed companies which operate in mobility business segment similar to that of JSLLL (comprising of Mobility Business after the demerger of Non Mobility Business under Part C of the Scheme), we have accordingly used CCM method to value the equity shares of JSLLL.

We have identified publicly listed broadly comparable companies based on business of JSLLL, and valued them having regard to their profitability multiple in comparison to the Mobility Business of JSLLL.

Under CTM, the value of shares/ business of a company is determined based on market multiples of publicly disclosed transactions in the similar space as that of the subject company. Multiples are generally based on data from recent transactions in a comparable sector, but with appropriate adjustment after consideration has been given to the specific characteristics of the business being valued.

Based on our analysis and discussion with the Management, we understand that there are no recent comparable transactions, data of which is available in public domain, involving companies of similar nature and having a similar operating/ financial metrics as that of the JSL, JSHL and JSLLL, we have therefore not used CTM method to value the shares of these Companies.

2. Income Approach – Discounted Cash Flow Method ('DCF')

DCF method values a business based upon the available cash flow a prudent investor would expect the subject business to generate over a given period of time. This method is used to determine the present value of a business on a going concern assumption and recognizes the time value of money by discounting the free cash flows for the explicit forecast period and the terminal value at an appropriate discount factor. The free cash flows represent the cash available for distribution to both the owners of and lenders to the business. The terminal value represents the total value of the available cash flow for all periods subsequent to the forecast period. The terminal value of the business at the end of the forecast period is estimated and discounted to its equivalent present value and added to the present value of the explicit forecast period cash flow to estimate the value of the business.

The projected free cash flows are discounted by the Weighted Average Cost of Capital (WACC) to arrive at the enterprise value. The WACC represents the returns required by the investors of both debt and equity weighed to their relative funding in the entity.

JSL and JSHL both are listed companies and since the information related to future financial projections of the Company or its subsidiaries are price sensitive in nature, we were not provided with the financial projections of these Companies nor of JSLLL by the Management. We have therefore not used DCF method to determine the fair value of the equity shares of JSL, JSHL and JSLLL.

3. Asset Approach - Net Asset Value Method ('NAV')

The asset-based value analysis technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. This methodology is likely to be appropriate for business which derives value mainly from the underlying value of its assets rather than its earnings. This value analysis approach may also be used in case where the firm is to be liquidated i.e. it does not meet the "going concern" criteria or in case where the assets base dominates earning capability. It is also used where the main strength of the business is its asset backing rather than its capacity or potential to earn profits.

JSL, JSHL and JSLLL presently operate as a going concern and an actual realisation of operating assets is not contemplated, we have therefore considered it appropriate not to determine the realisable or replacement value of the assets. Also, JSL, JSHL and JSLLL are profit making companies and NAV Method does not value the future profit earning potential of the business, we have therefore not used this method to value the equity shares of JSL, JSHL and JSLLL.

RECOMMENDATION OF THE RATIO OF SHARE EXCHANGE FOR THE PROPOSED AMALGAMATION.

The share exchange ratio has been arrived at on the basis of a relative (and not absolute) equity value of the Amalgamating companies and Amalgamated company for the proposed scheme of amalgamation based on the various methodologies mentioned herein earlier. Suitable rounding off have been carried out wherever necessary to arrive at the recommended share exchange ratio.

Refer Annexure 1 for value per share under different methods prescribed and the share exchange ratio.

In light of the above and on a consideration of all the relevant factors and circumstances as discussed and outlined herein above including scope, limitations and assumptions describe in this report and the engagement letter, we recommend the share exchange ratio as follows:

1) To the equity shareholders/ GDS holders of JSHL

195 (One Hundred and Ninety Five) equity shares of JSL having face value of INR 2 each fully paid up shall be issued for every 100 (One Hundred) equity shares held in JSHL having face value of INR 2 each fully paid up.

195 (One Hundred and Ninety Five) GDS of JSL shall be issued for every 100 (One Hundred) GDS held in JSHL

2) To the equity shareholders of JSLLL

101 (One hundred and one) equity shares of JSL having face value of INR 2 each fully paid up shall be issued for every 100 (One Hundred) equity shares held in JSLLL having face value of INR 10 each fully paid up.

3) To the equity shareholders of JML

JML (Amalgamating Company No. 3) is a wholly owned subsidiary of JSHL. Upon Part B of the Scheme becoming effective whereby JSHL (Amalgamating Company No. 1) shall merge with JSL (Amalgamated Company), JML shall become a wholly owned subsidiary of JSL. Therefore, the shares held by JSL (past effectiveness of Part B of the Scheme) in JML would get cancelled and no equity shares would be required to be issued to the equity shareholders of JML (i.e. JSL) for the proposed amalgamation as defined under Part E of the Scheme.

4) To the equity shareholders of JSCMS

Equity shares of JSCMS (Amalgamating Company No. 4) outstanding as at the report date are held in equal proportion by JSL (Amalgamated Company) and JSHL (Amalgamating Company No. 1). Upon Part B of the Scheme becoming effective whereby JSHL (Amalgamating Company No. 1) shall merge into and with JSL (Amalgamated Company), JSCMS shall become a wholly owned subsidiary of JSL. Therefore, the shares held by JSL (past effectiveness of Part B of the Scheme) in JSCMS would get cancelled and no equity shares would be required to be issued to the equity shareholders of JSCMS (i.e. JSL) for the proposed amalgamation as defined under Part F of the Scheme.

RECOMMENDATION OF THE RATIO OF SHARE ENTITLEMENT FOR THE PROPOSED DEMERGER

Rationale for Share Entitlement Ratio

As mentioned earlier, as a part of the Composite Scheme of Arrangement (Scheme), 'Non-Mobility Business' of JSLLL is proposed to be demerged into its wholly owned subsidiary i.e. Jindal Lifestyle Limited ('JLL' or 'Resulting Company'). JSLLL has identified all the assets and liabilities of the Non-Mobility Business which are to be taken over by and transferred to JLL. Also, as a part of the same Scheme all the outstanding issued and paid-up share capital of JLL ('Pre-Demerger Equity Share Capital') would be cancelled by way of capital reduction.

We understand that, upon the scheme being effective, all the shareholders of JSLLL would also become the shareholders of JLL and with the entire outstanding issued and paid-up share capital of JLL ('Pre-Demerger Equity Share Capital') getting cancelled by way of a capital reduction as part of the same scheme, their shareholding in JLL would mirror their existing shareholding in JSLLL prior to the demerger.

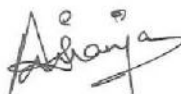

Taking into account the above facts and circumstance, any share entitlement ratio can be considered appropriate and fair for the proposed demerger as the proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary, we have therefore not carried out any independent valuation of the subject business.

Therefore, in our view, any Share Entitlement Ratio is fair and equitable, considering that all the shareholders of JSLLL, will, upon the proposed demerger, have their inter-se economic interests, rights, obligations in JLL post-demerger in the same proportion as their existing economic interests, rights and obligations in JSLLL pre-demerger.

In the light of the above and on a consideration of all the relevant factors and circumstances and subject to our scope, limitations as mentioned in the report; and based upon discussion with the Management and keeping in mind the future equity capital requirements and servicing capacity of JLL, we recommend for the proposed demerger the following share entitlement ratio of:

1 (One) equity shares of JLL having face value of INR 10 each fully paid up shall be issued for every 1 (One) equity shares held in JSLLL having face value of INR 10 each fully paid up.

Note: JSL has certain outstanding convertible share warrants as at report date, since market price reflects all the factors/ attributes applicable to the Company, we have not undertaken any separate adjustment towards the outstanding convertible share warrants.

Notes:

1) Market Approach – Comparable Companies Method

As there are no other listed comparable Companies in India that operate in the Stainless Steel business we have not used the Comparable Companies Method to value JSL and JSHL equity shares.

JSLLL being an unlisted Company we have not used the Market price method to value its equity shares.

2) Income Approach- Discounted Cash Flow Method

JSL and JSHL both are listed companies and information related to it or its subsidiaries future performance being price sensitive in nature, we were not provided with the financial projections of these Companies. We have therefore not used DCF method to determine the fair value of the equity shares of JSL, JSHL and JSLLL.

3) Asset Approach- NAV Method

JSL, JSHL and JSLLL presently operate as a going concern and an actual realisation of operating assets is not contemplated, we have therefore considered it appropriate not to determine the realisable or replacement value of the assets. Also JSL, JSHL and JSLLL are profit making companies and NAV Method does not value the future profit earning potential of the business, we have therefore not used this method to value the equity shares of JSL, JSHL and JSLLL.

JSHL, JSLLL and JSL are collectively referred to as the "Merging Entities".

In this regard, SBICAP has been requested by the respective managements of the Transacting Companies to give a "Fairness Opinion Report" on the share entitlement ratio mentioned above for

The Board noted that the management of the Applicant Companies is of the view that the stainless steel industry is poised for substantial growth in the near to medium term which opportunity can be better capitalised as a consolidated entity which has a bigger balance sheet, larger portfolio of products and services and a more streamlined structure. The management of the Applicant Companies further believes that the proposed consolidation will result into better efficiencies and economies of scale and in the post pandemic world, a single unified organisation is likely to have a faster growth trajectory. The consolidated organization is also expected to create more value for all the stakeholders. Also, at the same time, the consolidated Scheme addresses the need for the two core businesses of the Demerged Company to be demerged and grown in separate legal entities as the nature of risk and opportunities involved in both these businesses is divergent and capable of attracting different sets of investors.

ii. Rationale of the Scheme-

The Board noted that the rationale for the proposed Scheme is as below –

- (a) The Amalgamated Company proposes to enter into this Scheme with Amalgamating Company No. 1 and the Amalgamating Company No. 2, to consolidate their respective manufacturing/service capabilities thereby increasing efficiencies in operations and use of resources, to consolidate their diversified product and services portfolio for improving overall customer satisfaction, to pool their human resource talent for optimal utilization of their expertise, to integrate the marketing and distribution channels for better efficiency, to have a larger market footprint domestically and globally, to ensure optimization of working capital utilisation and with Amalgamating Company No. 3 and Amalgamating Company No. 4, to have a simplified and

streamlined structure and help in better utilization of the resources and lead to operational efficiencies.

(b) The management of the respective Applicant Companies are of the view that the amalgamations proposed in this Scheme is, in particular, expected to have the following benefits:-

- Consolidation of the complementing strengths will enable the Amalgamated Company to have increased capability for offering diversified products and services on a single platform. Its enhanced resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders.
- The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the businesses of the Amalgamated Company.
- The consolidation of funds and resources will lead to optimisation of working capital utilization and stronger financial leverage given the simplified capital structure, improved balance sheet, optimised management structure and consolidation of cross location talent pool.
- The amalgamation will result in simplification of the group and business structure and will enable the consolidated entity to have a stronger global footprint and more extensive pan India network for deeper market penetration and enhancement of the overall customer satisfaction, engagement and retention.
- Above all, since, both, the Amalgamating Company No. 1 and the Amalgamated Company are companies belonging to the same promoter group which are engaged in manufacturing of stainless steel, the amalgamation pursuant to Part B of the Scheme will enable them to bring together their respective synergies in manufacturing of stainless steel thereby enhancing value for all the stakeholders.

- (c) The Scheme envisages demerger of the Demerged Undertaking and vesting of the same in the Resulting Company pursuant to Part C of the Scheme, to enable the Resulting Company and the Demerged Company to achieve optimum growth and development of their respective business operations post such demerger. The nature of risk and opportunities involved in both the businesses is divergent and capable of attracting different sets of investors. The management of the respective companies believe that both the businesses (i.e. Non-Mobility Business and Mobility Business (*as defined in the Scheme*)) will benefit from separate focused management and separate investment strategy leading to development, expansion and growth for maximisation of stakeholder value.
- (d) After the demerger of the Demerged Undertaking and vesting of the same into the Resulting Company pursuant to Part C of the Scheme the residual undertaking of the Amalgamating Company No. 2 which is engaged in the Mobility Business (*as defined in the Scheme*) and therefore has a greater synergy with the business of the Amalgamated Company (manufacture of stainless steel and stainless steel products) would be amalgamated with the Amalgamated Company pursuant to Part D of the Scheme to tap the larger resources of the Amalgamated Company, enhance its productivity and efficiency of operations and logistics.
- (e) Amalgamation of the Amalgamating Company No. 3 pursuant to Part E of the Scheme will lead to a simplified and streamlined structure and help in better utilization of the resources and lead to operational efficiencies.
- (f) Amalgamation of the Amalgamating Company No. 4 pursuant to Part F of the Scheme will also lead to a simplified and streamlined structure and help in better utilization of the resources and lead to operational efficiencies.
- (g) The management of the respective Applicant Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Applicant Companies.

The Board noted that the rationale for the proposed Scheme is as below –

- (a) The Amalgamated Company proposes to enter into this Scheme with Amalgamating Company No. 1 and the Amalgamating Company No. 2, to consolidate their respective manufacturing/service capabilities thereby increasing efficiencies in operations and use of resources, to consolidate their diversified product and services portfolio for improving overall customer satisfaction, to pool their human resource talent for optimal utilization of their

viii. Recommendations of the Sub-Committee.

6. The Need and Rationale for the Scheme:

- i. The Board noted that the management of the Applicant Companies is of the view that the stainless steel industry is poised for substantial growth in the near to medium term which opportunity can be better capitalised as a consolidated entity which has a bigger balance sheet, larger portfolio of products and services and a more streamlined structure. The management of the Applicant Companies further believes that the proposed consolidation will result into better efficiencies and economies of scale and in the post pandemic world, a single unified organisation is likely to have a faster growth trajectory. The consolidated organization is also expected to create more value for all the stakeholders. Also, at the same time, the consolidated Scheme addresses the need for the two core businesses of the Demerged Company to be demerged and grown in separate legal entities as the nature of risk and opportunities involved in both these businesses is divergent and capable of attracting different sets of investors.

ii. Rationale of the Scheme-

The Board noted that the rationale for the proposed Scheme is as below –

- (a) The Amalgamated Company proposes to enter into this Scheme with Amalgamating Company No. 1 and the Amalgamating Company No. 2, to consolidate their respective manufacturing/service capabilities thereby increasing efficiencies in operations and use of resources, to consolidate their diversified product and services portfolio for improving overall customer satisfaction, to pool their human resource talent for optimal utilization of their expertise, to integrate the marketing and distribution channels for better efficiency, to have a larger market footprint domestically and globally, to ensure optimization of working capital utilisation and with Amalgamating Company 3 and Amalgamating Company 4, to have a simplified and streamlined structure and help in better utilization of the resources and lead to operational efficiencies.

(b) The management of the respective Applicant Companies are of the view that the amalgamations proposed in this Scheme is, in particular, expected to have the following benefits:-

- Consolidation of the complementing strengths will enable the Amalgamated Company to have increased capability for offering diversified products and services on a single platform. Its enhanced resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders.
- The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the businesses of the Amalgamated Company.
- The consolidation of funds and resources will lead to optimisation of working capital utilization and stronger financial leverage given the simplified capital structure, improved balance sheet, optimised management structure and consolidation of cross location talent pool.
- The amalgamation will result in simplification of the group and business structure and will enable the consolidated entity to have a stronger global footprint and more extensive pan India network for deeper market penetration and enhancement of the overall customer satisfaction, engagement and retention.
- Above all, since, both, the Amalgamating Company No. 1 and the Amalgamated Company are companies belonging to the same promoter group which are engaged in manufacturing of stainless steel, the amalgamation pursuant to Part B of the Scheme will enable them to bring together their respective synergies in manufacturing of stainless steel thereby enhancing value for all the stakeholders.

(c) The Scheme envisages demerger of the Demerged Undertaking and vesting of the same in the Resulting Company pursuant to Part C of the Scheme, to

enable the Resulting Company and the Demerged Company to achieve optimum growth and development of their respective business operations post such demerger. The nature of risk and opportunities involved in both the businesses is divergent and capable of attracting different sets of investors. The management of the respective companies believe that both the businesses (i.e. Non-Mobility Business and Mobility Business (*as defined in the Scheme*)) will benefit from separate focused management and separate investment strategy leading to development, expansion and growth for maximisation of stakeholder value.

- (d) After the demerger of the Demerged Undertaking and vesting of the same into the Resulting Company pursuant to Part C of the Scheme the residual undertaking of the Amalgamating Company No. 2 which is engaged in the Mobility Business (*as defined in the Scheme*) and therefore has a greater synergy with the business of the Amalgamated Company (manufacture of stainless steel and stainless steel products) would be amalgamated with the Amalgamated Company pursuant to Part D of the Scheme to tap the larger resources of the Amalgamated Company, enhance its productivity and efficiency of operations and logistics.
- (e) Amalgamation of the Amalgamating Company No. 3 pursuant to Part E of the Scheme will lead to a simplified and streamlined structure and help in better utilization of the resources and lead to operational efficiencies.
- (f) Amalgamation of the Amalgamating Company No. 4 pursuant to Part F of the Scheme will also lead to a simplified and streamlined structure and help in better utilization of the resources and lead to operational efficiencies.

The management of the respective Applicant Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Companies

believes that the proposed consolidation will result into better efficiencies and economies of scale and in the post pandemic world, a single unified organisation is likely to have a faster growth trajectory. The consolidated organization is also expected to create more value for all the stakeholders. Also, at the same time, the consolidated Scheme addresses the need for the two core businesses of the Demerged Company to be demerged and grown in separate legal entities as the nature of risk and opportunities involved in both these businesses is divergent and capable of attracting different sets of investors.

ii. **Rationale of the Scheme-**

The Board noted that the rationale for the proposed Scheme is as below –

(a) The Amalgamated Company proposes to enter into this Scheme with Amalgamating Company No. 1 and the Amalgamating Company No. 2, to consolidate their respective manufacturing/service capabilities thereby increasing efficiencies in operations and use of resources, to consolidate their diversified product and services portfolio for improving overall customer satisfaction, to pool their human resource talent for optimal utilization of their expertise, to integrate the marketing and distribution channels for better efficiency, to have a larger market footprint domestically and globally, to ensure optimization of working capital utilisation and with Amalgamating Company 3 and Amalgamating Company 4, to have a simplified and streamlined structure and help in better utilization of the resources and lead to operational efficiencies.

(b) The management of the respective Applicant Companies are of the view that the amalgamations proposed in this Scheme is, in particular, expected to have the following benefits:-

- Consolidation of the complementing strengths will enable the Amalgamated Company to have increased capability for offering diversified products and services on a single platform. Its enhanced resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders.

- The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the businesses of the Amalgamated Company.
 - The consolidation of funds and resources will lead to optimisation of working capital utilization and stronger financial leverage given the simplified capital structure, improved balance sheet, optimised management structure and consolidation of cross location talent pool.
 - The amalgamation will result in simplification of the group and business structure and will enable the consolidated entity to have a stronger global footprint and more extensive pan India network for deeper market penetration and enhancement of the overall customer satisfaction, engagement and retention.
 - Above all, since, both, the Amalgamating Company No. 1 and the Amalgamated Company are companies belonging to the same promoter group which are engaged in manufacturing of stainless steel, the amalgamation pursuant to Part B of the Scheme will enable them to bring together their respective synergies in manufacturing of stainless steel thereby enhancing value for all the stakeholders.
- (c) The Scheme envisages demerger of the Demerged Undertaking and vesting of the same in the Resulting Company pursuant to Part C of the Scheme, to enable the Resulting Company and the Demerged Company to achieve optimum growth and development of their respective business operations post such demerger. The nature of risk and opportunities involved in both the businesses is divergent and capable of attracting different sets of investors. The management of the respective companies believe that both the businesses (i.e. Non-Mobility Business and Mobility Business (*as defined in the Scheme*)) will benefit from separate focused management and separate investment strategy leading to development, expansion and growth for maximisation of stakeholder value.

- The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the businesses of the Amalgamated Company.
 - The consolidation of funds and resources will lead to optimisation of working capital utilization and stronger financial leverage given the simplified capital structure, improved balance sheet, optimised management structure and consolidation of cross location talent pool.
 - The amalgamation will result in simplification of the group and business structure and will enable the consolidated entity to have a stronger global footprint and more extensive pan India network for deeper market penetration and enhancement of the overall customer satisfaction, engagement and retention.
 - Above all, since, both, the Amalgamating Company No. 1 and the Amalgamated Company are companies belonging to the same promoter group which are engaged in manufacturing of stainless steel, the amalgamation pursuant to Part B of the Scheme will enable them to bring together their respective synergies in manufacturing of stainless steel thereby enhancing value for all the stakeholders.
- (c) The Scheme envisages demerger of the Demerged Undertaking and vesting of the same in the Resulting Company pursuant to Part C of the Scheme, to enable the Resulting Company and the Demerged Company to achieve optimum growth and development of their respective business operations post such demerger. The nature of risk and opportunities involved in both the businesses is divergent and capable of attracting different sets of investors. The management of the respective companies believe that both the businesses (i.e. Non-Mobility Business and Mobility Business (*as defined in the Scheme*)) will benefit from separate focused management and separate investment strategy leading to development, expansion and growth for maximisation of stakeholder value.

2. This Statement, which is the responsibility of the Holding Company's Management and approved by the Holding Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, (Ind AS 34) "Interim Financial Reporting" prescribed under Section 133 of the Companies Act, 2013 as amended, read with relevant rules issued thereunder and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion. We also performed procedures in accordance with the Circular No. CIR/CFD/CMD1/44/2019 dated 29th March, 2019 issued by the Securities and Exchange Board of India under Regulation 33(8) of the Regulations, to the extent applicable.

Independent Auditor's Review Report on the Quarterly Unaudited Standalone Financial Results of the Company Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended.

To,
The Board of Directors,
JSL MEDIA LIMITED

1. We have reviewed the accompanying statement of unaudited standalone financial results of **JSL MEDIA LIMITED** (the 'Company') for the quarter and Nine month ended December 31, 2021 (the "Statement") attached herewith, being submitted by the Company pursuant to the requirements of Regulation 33 other SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the Regulation), read with SEBI Circular No. CIRICFD/CMD 1144/2019 dated March 29, 2019 (the Circular).

2. The preparation of the Statement in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, (Ind AS 34) "Interim Financial Reporting" prescribed under Section 133 of the Companies Act, 2013, as amended, read with relevant rules issued thereunder and other accounting principles generally accepted in India, read with the Circular is the responsibility of the Company's management and has been approved by the Board of Directors of the Company. Our responsibility is to express a conclusion on the Statement based on our review.

3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the applicable Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013 as amended, read with relevant rules issued thereunder and other recognised accounting practices and policies has not disclosed the information required to be disclosed in terms of the Regulation, read with the Circular, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Independent Auditor's Review Report on the Quarterly Unaudited Standalone Financial Results of the Company Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended.

To,

The Board of Directors,

JINDAL STAINLESS CORPORATE MANAGEMENT SERVICES PRIVATE LIMITED

1. We have reviewed the accompanying statement of unaudited standalone financial results of JINDAL STAINLESS CORPORATE MANAGEMENT SERVICES PRIVATE LIMITED (the 'Company') for the quarter and nine months ended December 31, 2021 (the "Statement") attached herewith, being submitted by the Company pursuant to the requirements of Regulation 33 other SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Regulation").

2. The preparation of the Statement in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, (Ind AS 34) "Interim Financial Reporting" prescribed under Section 133 of the Companies Act, 2013, as amended, read with relevant rules issued thereunder and other accounting principles generally accepted in India, read with the Circular is the responsibility of the Company's management and has been approved by the Board of Directors of the Company. Our responsibility is to express a conclusion on the Statement based on our review.

3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the applicable Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013 as amended, read with relevant rules issued thereunder and other recognised accounting practices and policies has not disclosed the information required to be disclosed in terms of the Regulation, read with the Circular, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Independent Auditor's Review Report on Unaudited Quarterly Financial Results of the Company Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended)

To,
The Board of Directors
Jindal Lifestyle Limited

1. We have reviewed the accompanying statement of unaudited financial results of Jindal Lifestyle Limited ('the Company') for the quarter ended December 31, 2021 and year to date from April 01, 2021 to December 31, 2021 ('the Statement') being submitted by the Company pursuant to the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended), including relevant circulars issued by the SEBI from time to time.
2. The Statement, which is the responsibility of the Company's Management and approved by the Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, Interim Financial Reporting ('Ind AS 34'), prescribed under Section 133 of the Companies Act, 2013 ('the Act'), and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity, issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the Standards on Auditing specified under Section 143(10) of the Act, and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. Based on our review conducted as above nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standards, prescribed under Section 133 of the Act, and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in accordance with the requirements of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended), including the manner in which it is to be disclosed, or that it contains any material misstatement.

RATIONALE OF THE SCHEME

- The Amalgamated Company proposes to enter into this Scheme with Amalgamating Company No. 1, Amalgamating Company No. 2, Amalgamating Company No. 3 and Amalgamating Company No. 4, to consolidate their respective manufacturing/service capabilities thereby increasing efficiencies in operations and use of resources, to consolidate their diversified product and services portfolio for improving overall customer satisfaction, to pool their human resource talent for optimal utilization of their expertise, to integrate the marketing and distribution channels for better efficiency, to have a larger market footprint domestically and globally, to simplify and streamline the group structure and to ensure optimization of working capital utilisation.
- The management of the respective Applicant Companies are of the view that the amalgamations proposed in this Scheme is, in particular, expected to have the following benefits:
 - Consolidation of the complementing strengths will enable the Amalgamated Company to have increased capability for offering diversified products and services on a single platform. Its enhanced resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders.
 - The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the businesses of the Amalgamated Company.
 - The consolidation of funds and resources will lead to optimisation of working capital utilization and stronger financial leverage given the simplified capital structure, improved balance sheet, optimised management structure and consolidation of cross location talent pool.
 - The amalgamation will result in simplification of the group and business structure and will enable the consolidated entity to have a stronger global footprint and more extensive pan India network for deeper market penetration and enhancement of the overall customer satisfaction, engagement and retention.
- Above all, since both, the Amalgamating Company No. 1 and the Amalgamated Company are companies belonging to the same promoter group which are engaged in manufacturing of stainless steel, the amalgamation pursuant to Part B of the Scheme will enable them to bring together their respective synergies in manufacturing of stainless steel thereby enhancing value for all the stakeholders.
- The Scheme envisages demerger of the Demerged Undertaking and vesting of the same in the Resulting Company pursuant to Part C, to enable the Resulting Company and the Demerged Company to achieve optimum growth and development of their respective business operations post such demerger. The nature of risk and opportunities involved in both the businesses is divergent and capable of attracting different sets of investors. The management of the respective companies believes that both the businesses (i.e., Non-Mobility Business (as defined in the Scheme) and Mobility Business (as defined in the Scheme)) will benefit from separate focused management and separate investment strategy leading to development, expansion and growth for maximisation of stakeholder value.
- After the demerger of the Demerged Undertaking and vesting of the same into the Resulting Company pursuant to Part C of the Scheme, the residual undertaking of the Amalgamating Company No. 2 which is engaged in the Mobility Business (as defined in the Scheme) and therefore has a greater synergy with the business of the Amalgamated Company (manufacture of stainless steel and stainless steel products) would be amalgamated with the Amalgamated Company pursuant to Part D of the Scheme to tap the larger resources of the Amalgamated Company, enhance its productivity and efficiency of operations and logistics.
- Amalgamation of the Amalgamating Company No. 3 pursuant to Part E will lead to a simplified and streamlined structure and help in better utilization of the resources and lead to operational efficiencies.
- Amalgamation of the Amalgamating Company No. 4 pursuant to Part F will also lead to a simplified and streamlined structure and help in better utilization of the resources and lead to operational efficiencies.

8. The management of the respective Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Companies. Further, the Scheme will enable the synergies that already exist between the Amalgamating Companies and the Amalgamated Company in terms of services and resources to be used optimally for the benefit of their stakeholders.

RATIONALE OF THE SCHEME

1. The Amalgamated Company proposes to enter into this Scheme with Amalgamating Company No. 1, Amalgamating Company No. 2, Amalgamating Company No. 3 and Amalgamating Company No. 4, to consolidate their respective manufacturing/service capabilities thereby increasing efficiencies in operations and use of resources, to consolidate their diversified product and services portfolio for improving overall customer satisfaction, to pool their human resource talent for optimal utilization of their expertise, to integrate the marketing and distribution channels for better efficiency, to have a larger market footprint domestically and globally, to simplify and streamline the group structure and to ensure optimization of working capital utilisation.
2. The management of the respective Applicant Companies are of the view that the amalgamations proposed in this Scheme is, in particular, expected to have the following benefits:
 - a) Consolidation of the complementing strengths will enable the Amalgamated Company to have increased capability for offering diversified products and services on a single platform. Its enhanced resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders.
 - b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the businesses of the Amalgamated Company.
 - c) The consolidation of funds and resources will lead to optimisation of working capital utilization and stronger financial leverage given the simplified capital structure, improved balance sheet, optimised management structure and consolidation of cross location talent pool.
 - d) The amalgamation will result in simplification of the group and business structure and will enable the consolidated entity to have a stronger global footprint and more extensive pan India network for deeper market penetration and enhancement of the overall customer satisfaction, engagement and retention.
3. Above all, since both, the Amalgamating Company No. 1 and the Amalgamated Company are companies belonging to the same promoter group which are engaged in manufacturing of stainless steel, the amalgamation pursuant to Part B of the Scheme will enable them to bring together their respective synergies in manufacturing of stainless steel thereby enhancing value for all the stakeholders.
4. The Scheme envisages demerger of the Demerged Undertaking and vesting of the same in the Resulting Company pursuant to Part C, to enable the Resulting Company and the Demerged Company to achieve optimum growth and development of their respective business operations post such demerger. The nature of risk and opportunities involved in both the businesses is divergent and capable of attracting different sets of investors. The management of the respective companies believe that both the businesses (i.e., Non-Mobility Business (as defined in the Scheme) and Mobility Business (as defined in the Scheme)) will benefit from separate focused management and separate investment strategy leading to development, expansion and growth for maximisation of stakeholder value.
5. After the demerger of the Demerged Undertaking and vesting of the same into the Resulting Company pursuant to Part C of the Scheme, the residual undertaking of the Amalgamating Company No. 2 which is engaged in the Mobility Business (as defined in the Scheme) and therefore has a greater synergy with the business of the Amalgamated Company (manufacture of stainless steel and stainless steel products) would be amalgamated with the Amalgamated Company pursuant to Part D of the Scheme to tap the larger resources of the Amalgamated Company, enhance its productivity and efficiency of operations and logistics.
6. Amalgamation of the Amalgamating Company No. 3 pursuant to Part E will lead to a simplified and streamlined structure and help in better utilization of the resources and lead to operational efficiencies.
7. Amalgamation of the Amalgamating Company No. 4 pursuant to Part F will also lead to a simplified and streamlined structure and help in better utilization of the resources and lead to operational efficiencies.
8. The management of the respective Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Companies. Further, the Scheme will enable the synergies that already exist between the Amalgamating Companies and the Amalgamated Company in terms of services and resources to be used optimally for the benefit of their stakeholders.

- The Amalgamated Company proposes to enter into this Scheme with Amalgamating Company No. 1, Amalgamating Company No. 2, Amalgamating Company No. 3 and Amalgamating Company No. 4, to consolidate their respective manufacturing/service capabilities thereby increasing efficiencies in operations and use of resources, to consolidate their diversified product and services portfolio for improving overall customer satisfaction, to pool their human resource talent for optimal utilization of their expertise, to integrate the marketing and distribution channels for better efficiency, to have a larger market footprint domestically and globally, to simplify and streamline the group structure and to ensure optimization of working capital utilisation.
- The management of the respective Applicant Companies are of the view that the amalgamations proposed in this Scheme is, in particular, expected to have the following benefits:
 - Consolidation of the complementing strengths will enable the Amalgamated Company to have increased capability for offering diversified products and services on a single platform. Its enhanced resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders.
 - The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the businesses of the Amalgamated Company.
 - The consolidation of funds and resources will lead to optimisation of working capital utilization and stronger financial leverage given the simplified capital structure, improved balance sheet, optimised management structure and consolidation of cross location talent pool.
 - The amalgamation will result in simplification of the group and business structure and will enable the consolidated entity to have a stronger global footprint and more extensive pan India network for deeper market penetration and enhancement of the overall customer satisfaction, engagement and retention.

3. Above all, since both, the Amalgamating Company No. 1 and the Amalgamated Company are companies belonging to the same promoter group which are engaged in manufacturing of stainless steel, the amalgamation pursuant to Part B of the Scheme will enable them to bring together their respective synergies in manufacturing of stainless steel thereby enhancing value for all the stakeholders.
4. The Scheme envisages demerger of the Demerged Undertaking and vesting of the same in the Resulting Company pursuant to Part C, to enable the Resulting Company and the Demerged Company to achieve optimum growth and development of their respective business operations post such demerger. The nature of risk and opportunities involved in both the businesses is divergent and capable of attracting different sets of investors. The management of the respective companies believe that both the businesses (i.e., Non-Mobility Business (as defined in the Scheme) and Mobility Business (as defined in the Scheme)) will benefit from separate focused management and separate investment strategy leading to development, expansion and growth for maximisation of stakeholder value.
5. After the demerger of the Demerged Undertaking and vesting of the same into the Resulting Company pursuant to Part C of the Scheme, the residual undertaking of the Amalgamating Company No. 2 which is engaged in the Mobility Business (as defined in the Scheme) and therefore has a greater synergy with the business of the Amalgamated Company (manufacture of stainless steel and stainless steel products) would be amalgamated with the Amalgamated Company pursuant to Part D of the Scheme to tap the larger resources of the Amalgamated Company, enhance its productivity and efficiency of operations and logistics.

8. The management of the respective Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Companies. RATIONALE OF THE SCHEME

1. The Amalgamated Company proposes to enter into this Scheme with Amalgamating Company No. 1, Amalgamating Company No. 2, Amalgamating Company No. 3 and Amalgamating Company No. 4, to consolidate their respective manufacturing/service capabilities thereby increasing efficiencies in operations and use of resources, to consolidate their diversified product and services portfolio for improving overall customer satisfaction, to pool their human resource talent for optimal utilization of their expertise, to integrate the marketing and distribution channels for better efficiency, to have a larger market footprint domestically and globally, to simplify and streamline the group structure and to ensure optimization of working capital utilisation.
2. The management of the respective Applicant Companies are of the view that the amalgamations proposed in this Scheme is, in particular, expected to have the following benefits:
 - a) Consolidation of the complementing strengths will enable the Amalgamated Company to have increased capability for offering diversified products and services on a single platform. Its enhanced resource base and client relationships are likely to result in better business potential and prospects for the consolidated entity and its stakeholders.
 - b) The combined financial strength is expected to further accelerate the scaling up of the operations of the Amalgamated Company. Deployment of resources in a more efficient manner is likely to enable faster expansion of the businesses of the Amalgamated Company.
 - c) The consolidation of funds and resources will lead to optimisation of working capital utilization and stronger financial leverage given the simplified capital structure, improved balance sheet, optimised management structure and consolidation of cross location talent pool.
 - d) The amalgamation will result in simplification of the group and business structure and will enable the consolidated entity to have a stronger global footprint and more extensive pan India network for deeper market penetration and enhancement of the overall customer satisfaction, engagement and retention.
3. Above all, since both, the Amalgamating Company No. 1 and the Amalgamated Company are companies belonging to the same promoter group which are engaged in manufacturing of stainless steel, the amalgamation pursuant to Part B of the Scheme will enable them to bring together their respective synergies in manufacturing of stainless steel thereby enhancing value for all the stakeholders.
4. The Scheme envisages demerger of the Demerged Undertaking and vesting of the same in the Resulting Company pursuant to Part C, to enable the Resulting Company and the Demerged Company to achieve optimum growth and development of their respective business operations post such demerger. The nature of risk and opportunities involved in both the businesses is divergent and capable of attracting different sets of investors. The management of the respective companies believes that both the businesses (i.e., Non-Mobility Business (as defined in the Scheme) and Mobility Business (as defined in the Scheme)) will benefit from separate focused management and separate investment strategy leading to development, expansion and growth for maximisation of stakeholder value.
5. After the demerger of the Demerged Undertaking and vesting of the same into the Resulting Company pursuant to Part C of the Scheme, the residual undertaking of the Amalgamating Company No. 2 which is engaged in the Mobility Business (as defined in the Scheme) and therefore has a greater synergy with the business of the Amalgamated Company (manufacture of stainless steel and stainless steel products) would be amalgamated with the Amalgamated Company pursuant to Part D of the Scheme to tap the larger resources of the Amalgamated Company, enhance its productivity and efficiency of operations and logistics.
6. Amalgamation of the Amalgamating Company No. 3 pursuant to Part E will lead to a simplified and streamlined structure and help in better utilization of the resources and lead to operational efficiencies.
7. Amalgamation of the Amalgamating Company No. 4 pursuant to Part F will also lead to a simplified and streamlined structure and help in better utilization of the resources and lead to operational efficiencies.
8. The management of the respective Companies is of the view that this Scheme is in the interest of the customers, employees, lenders, shareholders and all other stakeholders of the respective Companies. Further, the Scheme will enable the synergies that already exist between the Amalgamating Companies and the Amalgamated Company in terms of services and resources to be used optimally for the benefit of their stakeholders.
